UNDER GRADUATE PROGRAMMES REGULATIONS – 2020

(For Students admitted from the academic year 2020-2021 onwards)

Regulations for Undergraduate Programmes

These regulations are applicable to the students admitted from the Academic Year 2020-21 onwards. As per the recommendation of University Grants Commission (UGC), higher education institutions need to carry out academic reforms. One of the significant reforms in the undergraduate education is to introduce the Learning Outcomes-based Curriculum Framework (LOCF) which makes it student-centric, interactive and outcome-oriented with well-defined aims, objectives and goals to achieve. The LOCF is formulated on the basis of a set of learning outcomes projected to be achieved for enhancing the employability and providing further opportunities for higher education and research. These Learning Outcomes (LO) determine the structure of the under graduate programs. In keeping with these recommendations, SRM Institute of Science and Technology (SRMIST) has adopted the Learning Outcomes-based Curriculum Framework (LOCF) in the Faculty of Science and Humanities in the year 2020 and implemented it from 2020-21 onwards.

Preliminary Definitions and Nomenclature

In these regulations, unless the context otherwise requires:

- i. **‘Degree’** means that academic award conferred upon a student on successful completion of a three-year programme designed to achieve the defined attributes. It is referred to as Under-Graduate (UG) Degree, that is, *for example*, “Bachelor of Arts” also known as “B.A. Degree”.
- ii. **‘Programme’** means cohesive arrangement of courses, co-curricular and extracurricular activities to accomplish predetermined objectives leading to the awarding of a degree. It also means discipline of Bachelor’s Degree programme like B.A. (English), B.Sc. (Physics), B.Com. (Accounts and Finance), *etc.* Some Degree programmes also provide options to specialize in a specific domain of interest. Such

Bachelor's Degree programmes are titled as the *Degree along with its specializations* like, B.Com. (Honors) in International Accounting and Finance, *etc.*

- iii. '**Course**' means a combination of theory, tutorials and practice sessions of a subject studied in a semester, like Mathematics, Physics, *etc.*

Note: For a Pure Theory Course, the Practice Part would be zero and similarly for a Pure Practice Course, the theory part would be appropriately zero.

- a) The ratio between Continuous Learning Assessments and Final Examinations for all courses is 50:50.
- b) A student should definitely attend the Final Examination to be eligible to Pass the course.
- c) For a student to PASS in a course, he/she has to score a minimum of 40% marks in aggregate.
- d) For the Theory Part of a course or a pure theory course; Continuous Assessments CLA-1 (normally in two learning units / modules or as prescribed by the Course Coordinator), CLA-2 (in two learning units /modules not covered in CLA-1 or as prescribed by the Course Coordinator) and CLA-3 (in all the five learning units / modules) are generally conducted as Written Tests of duration 90 minutes, 90 minutes and 180 minutes respectively each and the final examination is conducted for 180 minutes.
- e) For the Practice Part of a course or a pure Practice course; Continuous Learning Assessments CLA-1, CLA-2 and CLA-3 are generally conducted at periodic intervals, and for certain courses that need learning verification of oral and skill demonstrative abilities, there would be appropriate oral tests and tests for demonstrations, such as online aptitude tests, classroom activities, case studies, poster presentations, power-point presentations, mini talks, group discussions, mock interviews *etc.*
- f) CLA-4 is generally a combination from among one or more of these options:

Assignments	Surprise Tests	Seminars	Multiple Choice Quizzes

Mini-Projects	Case-Study	Group Activities	Online Certifications
Presentations	Debates	Conference Papers	Group Discussions

- g) Student learning from the theory and practice portions in a course shall be assessed by assigning a weightage of 50% for theory component and 50% for practical component. Grading shall be done for the consolidated mark.
- h) For the Practice Part (Laboratory/Practical) of a course or a pure Practicals (Laboratory/Practical) course; due weightage for carrying out experiments, such as observations, collection of data, analysis, interpretation of results, inferences and also timely submission of record work done would all carry due weightage based on the type of laboratories and the course and constitute the CLA-1, CLA-2, CLA-3. The nature of the end semester final examination shall be informed to the students at the commencement of the course.
- i) The Final examination (both theory and practice (Laboratory/Practicals) would be conducted only after the last working day of the semester.

Where C_i = credit for the i^{th} course, $(GP)_i$ = the grade point obtained for the i^{th} course (refer R.16.1 / R.16.2) , n = total number of courses and the sum is over all the courses taken in that semester, including those in which the student has secured 'F' and 'Ab' grades.

- (ii) For the cumulative grade point average (**CGPA**) following formula is used:

$$CGPA = \frac{\sum_i S_i \times (SGPA)_i}{\sum_i S_i}$$

where S_i = Sum of credits in i^{th} semester, $(SGPA)_i$ = Semester Grade Point Average earned in i^{th} semester and r = number of semesters and the sum is over all the semesters under consideration.

- (iii) The SGPA and CGPA shall be rounded off to 2 decimal points and reported in the transcripts.
